```
Create
html file

            1) 4 input boxes
            -name
            -qualification
            -age
            -email
            -submit button
            (above information should be displayed by we browser)
```

HTML :

```html
<!DOCTYPE html>
<html>
    <head>
        <title>User Registration</title>
    </head>
    <body style="background-color: violet:color: rgb(255, 255, 255);">
        <div style="max-width: 500px;margin: auto;">
        <p><h3 style="color: black;">Please Enter Your Details:</h3></p>
        <form>
            <label for="name">Enter your Name:</label><br>
            <input type="text" name="uname" id="name" >
            <br><br>
            <label for="Mail">Email ID:</label><br>
            <input type="text" name="email" id="Mail" >
            <br>
```

```html
            <br>
            <label for="number">Mobile No:</label><br>
            <input type="text" name="nnumber" id="number"  >
            <br>
            <br>
            <label for="city">City:</label><br>
            <input type="text" name="cccity" id="city" >
            <br>
            <br>
            <label for="state">State:</label><br>
            <input type="text" name="sstate" id="state" >
            <br>
            <br>
            <label for="country">Country:</label><br>
